

## Interactive Step-by-Step Guide to Mainstreaming Climate Adaptation & DRR in African Cities

### Stakeholder mapping template/checklist

The goal is to bring together key stakeholders from relevant sectors and levels of governance who are committed to being involved throughout the entire process. Ideally, this will include representatives from the following groups:

- ☐ National Departments (e.g. Disaster Risk Management, Agriculture, Roads, Water, Electricity, Infrastructure, Environment, Health, Finance, Economic Development, Women and Youth)
- ☐ Local Departments (e.g. Disaster Risk Management, Roads, Water, Electricity, Infrastructure, Environment, Health, Finance, Economic Development, Women and Youth)
- ☐ Public Disaster Management Authorities (Local and National)
- ☐ Public Infrastructure Authorities (Local and National)
- ☐ National and Local Statistical Office
- ☐ First Responders (e.g. fire department, police, military, healthcare)
- ☐ Early warning centre/ weather/ hydromet services
- ☐ Academic Institutions
- ☐ Local NGOs (DRR, climate change, sustainable development, urban planning, gender equality)
- ☐ International NGOs (DRR, climate change, sustainable development, urban planning, gender equality)

- ☐ Community and Faith based Leaders
- ☐ Civil Society Organisations
- ☐ Local Commercial and Development Banks
- ☐ Institutional Investors (e.g. pension funds, insurance companies, sovereign wealth funds)
- ☐ Large corporates/ Multinationals
- ☐ Local SMEs and Business Associations
- ☐ Multilateral Development Banks (e.g. WB, AIIB, IsDB, AFDB)
- ☐ Development Finance Institutions (e.g. DBSA, FCDO, KfW)
- ☐ Development partners (e.g. UNDP, FAO, IFAD)
